

“Special and Thematic: Need and Importance in Schools”

Thematic learning (often synonym with thematic instruction) is an instructional method of teaching in which emphasis is given on choosing a specific theme for teaching one or many concepts. It is based on integrating various information and use it to demonstrate the topic. Pedagogy of thematic learning is based on its exploration of broad areas in one theme. Ms.Ravita not only shared her valuable insight in the topic but also explained the importance of thematic learning for cementing long term memory. The vote of thanks was given by Ms.Neha and the entire institute and faculty tuned up to attend this enlightening lecture.
