

Co-Curricular Activity “TATTOO MAKING”

Date: 24th January’ 2020

Venue: Gitarattan Institute of Advanced Studies & Training

*Tattoos have a power and magic of their own. Decorate the body but also enhance the soul.
-Michelle Delio*

Tattoos become the medium to express thoughts and ideas. An activity of tattoo making encourages individuals to enhance their creativity. To fulfill this purpose, co-curricular event named “Tattoo Making Activity” was organized in all the sections of B.Ed (I & II year) and D.El.Ed (I & II year). Every section with 50 students each, participated in the event. The students were divided into pairs to proceed with the activity. The participants used different colored pens to ink their ideas in the form of tattoos.

It was a joyful task for the students and they participated in it with full enthusiasm as it was not only a break from their regular lectures but also an opportunity to be engaged in a constructive creative activity. The Students showcased their calligraphic and artistic skills which were very well evident in their tattoo art. The tattoos made were variant and innovative. Some were short quotations, pictures, names; while some were symbols, clip arts, etc.

This activity proved to be a fun-filled one and helped the students to unleash the inner artists in them. Some glimpses of this function are:
