

“Achievement Test Record”

An eye opening session was conducted by **Dr. S.K. Bhatia, Former Associate Professor, C.I.E., D.O.E., University of Delhi** who described the entire process of making ATR with item analysis and the importance of each items contribution to be analyzed and assessed. He further stated the need to write effective items, it is necessary to examine whether they are measuring the fact, idea, or concept for which they were intended. The lecture was attended by the faculty, staff and the students who joyously received the invaluable information and learnt the importance of making a question paper and checking its validity.
